

Introducing FELCO ELITE: Redefining Professional Pruning Shears

FELCO
unveils a new
professional
range,
FELCO ELITE

FELCO, world leader in pruning shears and pruning tools, proudly announces the launch of its latest NEW products: the FELCO ELITE range.

Designed to meet the needs of professional pruners, the FELCO ELITE range represents a significant leap forward in performance, comfort, and durability. Building on the legacy of excellence established by FELCO, the ELITE range incorporates cutting-edge design and materials to deliver unparalleled cutting performance and user experience. With a focus on ergonomics, durability, and environmental sustainability, the FELCO ELITE sets a new standard in the industry.

ENHANCED PERFORMANCE

The FELCO ELITE is engineered to effortlessly tackle even the toughest pruning tasks. Featuring the latest blade innovation from FELCO, F-Tech technology, the FELCO ELITE provides smooth cutting, while increasing productivity and efficiency for professional users.

“These two models embody FELCO’s core values of durability, ergonomics, and uncompromising performance. We are proud to offer this new range at an affordable price without compromising on the quality and performance of our tools, for which we are renowned.” underlines Nabil Francis, CEO of FELCO.

UNMATCHED COMFORT AND ERGONOMICS

Designed for extended use, the FELCO ELITE prioritizes user comfort. The leather-covered grips provide a comfortable and secure hold, reducing fatigue and muscle strain during prolonged pruning sessions. The ergonomic design ensures a perfect fit to hand contours and will mould to individual hand contours over time.

Unique Features

The FELCO ELITE distinguishes itself with a range of unique features, including:

F-Tech Blade: Provides excellent resistance to corrosion and scratches, reducing friction and sap adherence for smooth and clean cuts

Leather Grips: Genuine brown leather covering with red stitching for enhanced comfort and ergonomics

Thumb-Catch: Mid-opening thumb catch for precision cuts and increased productivity

Keyring Hole: Allows for easy attachment of a lanyard, keeping the ELITE accessible at all times

Warranty: Backed by FELCO's FOREVER lasting forged handles warranty concept, ensuring peace of mind for professional users

EXCEPTIONAL DURABILITY AND SUSTAINABILITY

With a focus on durability and environmental impact, the FELCO ELITE is built to last. High-quality materials and craftsmanship ensure long-lasting performance, while spare components and a full interchangeability concept make maintenance and repairs simple and cost-effective. Manufactured with recycled materials and using 100% green energy, the FELCO ELITE minimizes its environmental footprint. By increasing the lifespan of its products, FELCO fights against planned obsolescence and waste.

"At FELCO, we are proud to contribute to a greener and more sustainable future. By choosing FELCO, our customers are not just buying a tool; they are investing in the preservation of our planet." Adds Nabil Francis, CEO of FELCO.

Products specifications

FELCO 6 ELITE

One hand bypass pruner - Size M

20 mm
0.79 in.

195 mm
7.68 in.

210 g
0.46 lb

FELCO 8 ELITE

One hand bypass pruner - Size L

25 mm
0.98 in.

210 mm
8.27 in.

245 g
0.54 lb

- Handles in forged aluminium with a FOREVER guarantee
- High quality hardened carbon steel blade & counter blade, with F-Tech coating – non-stick reducing friction and sap adherence
- Mid-opening thumb catch for better productivity
- Blade with wire cutting notch
- Screw-mounted counter blade for easy replacement
- Locking segment nut for easy adjustment of the cutting head
- Genuine brown leather covering with red stitching for maximum comfort in the hand. Cut-off to show the aluminium handle at the tip
- A hole in the aluminium handle allows to fit a lanyard and keep the Elite at hand at anytime

Based in Geneveys-sur-Coffrane (canton of Neuchâtel) Switzerland, **FELCO SA** is the global leader in professional pruning shears and cable cutters. The Swiss company was founded in 1945 by Félix Flisch. Today, still in the hands of the founder's family, it employs 200 people and produces more than one million hand-held tools and 200,000 industrial tools every year, 90% of which are exported to more than 100 countries. FELCO is dedicated to environmental sustainability by reducing its ecological footprint through the production of sustainable and repairable pruning shears. Manufacturing relies on renewable electricity, including solar and hydroelectric power. Additionally, FELCO prioritizes the use of recycled materials, with 95% of its steel and 70% of aluminum sourced from recycled materials. All manufacturing residues are fully recycled, contributing to waste reduction. Each FELCO pruning shear emits less than 3 kg of CO₂, equivalent to less than a 20 km journey with a thermal engine car. By increasing the lifespan of their products, FELCO fights against planned obsolescence and promotes responsible consumption.
