

2-PIECE POSTS FOR VINES

C1 MAXI 2-SECTION INTERMEDIATE POST

HEIGHT 2.4M • 60 X 40MM

- Designed for vineyards with very heavy loads and high above-ground heights
- Shape designed without any sharp angles to prevent damage when mechanical equipment is used
- Shape that greatly reduces stick wear during mechanical harvesting
- Stamped slots integrated into the post structure to prevent them from closing during mechanical contact

2-SECTION C5 HEAD POST

HEIGHT 2.6M • 55 X 68MM • THICKNESS 2MM • GALVANIZED

- Designed for vineyards with very heavy loads and high above-ground heights
- Shape designed without any sharp angles to prevent damage when mechanical equipment is used
- Very high resistance to mechanical impact
- Extremely compact design for easy installation in difficult soil conditions and two inner folds
